KAL, the international No.1 ATM software company, seeks a software engineer to join our Verona team.

- Develop our world-leading multi-vendor ATM software for global banks
- Learn the latest technologies in an agile environment
- Be part of our friendly multilingual team of experts
- Extensive travel opportunities
- Excellent salary and benefits package

Successful candidates will have a good degree in Computer Science/Software Engineering, a positive attitude and an ability to take initiative and solve problems. Some experience of C# and/or C++ is expected. You should have native language skills in Italian and good conversational and written English.

To apply please send your CV to recruitmentitaly@kal.com
