GUIDE TO CONNECTING TO UNIVAIR-WPA2 WIFI

🔧 Configuration Instructions (English)

To connect to the UNIVAR-WPA2 WiFi network using your university credentials.

University credentials (GIA username) must be entered in the following format:

Username: id123xxx or xxxyyy123

Do not enter usernames like: mario.rossi@studenti.univr.it or mario.rossi@univr.it

Steps:

1. Go to **Settings > Wireless & networks > WiFi settings**.
2. Make sure WiFi is turned on.
3. Select the network **"UNIVAR-WPA2"**.
4. Configure the following parameters if requested:
   - **EAP method:** PEAP
   - **Phase 2 authentication:** MSCHAPV2
   - **CA certificate:** Use system certificates
   - **Domain:** wifi.univr.it
5. In the **Identity** field, enter your GIA credentials (e.g., GIA username = id123xxx).
6. Leave the **Anonymous identity** field empty (if present).
7. Enter your university password.
8. Tap **Connect**.
9. The device should display:
   - "Getting IP address from UNIVAR-WPA2..."
   - then "Connected to UNIVAR-WPA2".
10. **IMPORTANT:** If you want to exit, tap **Cancel**.

- Do not tap **Forget**, or you will have to repeat the entire configuration.

In case of problems:

- Restart your phone and try again.
- If you're still unable to connect, you may need to download updated certificates.
Visit:
👉 https://www.univr.it/it/i-nostri-servizi/servizi-di-rete-e-fonia/networking/univair-rete-wireless-di-ateneo
or contact **gdl.scientifico@univr.it** or **networking@ateneo.univr.it**

If your GIA password has expired, tap the gear icon and then **Remove network** (or similar). You will need to reconfigure the network.

If your password has expired you can retrieve a new one via https://gia.univr.it/gia/
